Newport Daily News.

VOL. XXVI—No. 23. NEWPORT, R. I., WEDNESDAY AFTERNOON, JANUARY 24, 1872. Single Copies Three Cents

The Newport Daily News
IS PUBLISHED BY
DAVIS & PITMAN,
At No. 13 Church Street.
Terms $6.00 Per Annum.

ADVERTISEMENTS will be inserted for $1.00 a square for the first insertion, and 25 cts. for each subsequent insertion. Ten lines or less, Nonpareil type, (like this) make a square.

☞ Local Notices 5c cents.

Transient Advertisements must be paid for in advance.

The privilege of yearly advertisers (of all classes) is limited to their own immediate business in their own name; it does not include Legal Notices, Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices, or Articles to be inserted in the reading columns will be charged fifty per cent. extra, reckoning by the space occupied.

☞ Paper discontinued until arrears are paid, unless at the option of the publishers.

nov4

We have just received a large Shipment of the Celebrated "MELROSE ABBEY" ALPACAS, BRILLIANTINES, MOHAIRS, CASHMERES, Gros de Venice, Gros De Zurich, &c., purchased in Europe before the recent great advance.

It may not be generally known, that owing to the high price of wool, the scarcity of labor, and above all the great desirability of these goods, the prices in Europe have advanced over 25 per cent. We therefore consider ourselves fortunate in having secured these goods at *old prices*, and we shall sell them at *old prices* as long as they last.

We are daily receiving large assortments of goods for the Holidays, many of them direct from Germany, our own importation,

Which we offer, Wholesale & Retail.
CROSBY, EDWARDS & CO.,

NEWPORT DAILY NEWS.

WEDNESDAY Jan. 24, 1872.

Education at the South.

If we had no other index of the improved condition of the southern people the report of the superintendent of schools of Virginia would tell the story. In 1861 there were no free schools in the whole south. Such a thing was no more allowed there than an abolitionist. Indeed the whole system of the northern free schools was considered a Yankee innovation to only to be condemned by the boasted southern chivalry. That lesson of the war, although a hard one, has taught them the value of our institutions. And the states, as fast as they become reconstructed and free from the political blackleg, who have had and still have too much power in many sections of the south, are not slow in adopting our free public school system.

This report of the superintendent of Virginia gives many interesting statements relative to the progress of the schools during the year just closed. There have been in operation during the year 3047 schools, of which 2844 are included in the report. Of this number 2138 were for white children, and 706 for colored. They were taught by 3014 teachers, of whom 2521 were white, and 493 colored. The number of white children enrolled were 89,734, 37.6 per cent. of the white school-attending population; which per centage will fall but little short of that of many of our northern states. The number of colored children enrolled was 38,556, which was only 23.6 per. cent. of the colored school-attending population. The schools were kept open four and a half months, and the average attendance has been good. The whole cost of the system during the year was $587,472 39. The degree of interest felt in education by the people at large is shown by the fact that the county school house tax was carried at the July elections in three fourths of the counties. As the census of 1870 shows that there were in Virginia at that time nearly 400,000 persons unable to read, and about 150,000 who could not write, the progress of education there, as shown in the superintendent's report, is gratifying and hopeful.

The New Counterfeit.

The following is a full description of the $50 counterfeit of the new greenback issue, series of 1869. This is the first note of the issue that has been counterfeited, and can readily be detected by the poor quality of the engraving, while the paper upon which the note is printed is not at all like the genuine. Running through the paper of the genuine issue is a fibre resembling bits of thread or colored silk; also, a narrow strip of fibre, which is termed the "localized fibre," extending from the bottom to the top of the note on the right side. This is made of certain materials interwoven in the paper during its making—a secret process known only to the inventors, which has undoubtedly proved a great check to counterfeiting. The large red seal of the Treasurer, and the numbers, are dull, are wanting in the counterfeit. The vignette (the return of peace) on the left side of the note—Peace holding in her hand a statue of Mercury—is coarsely engraved, the dark drapery having a scratchy appearance and none of the graceful folds produced by lights and shades which will be observed in the genuine note. The feet of the figure are badly drawn; also, upon the right arm, as seen upon the genuine note, is a bracelet strongly defined, while in the counterfeit it is hardly perceptible. Upon the upper left corner of the note is a shield with the monogram "U. S.," under which is a ribbon with the motto, "*E pluribus unum*"; in the genuine it is quite readable, while in the counterfeit it is blurred, and the letters are badly formed. Over the letter "U" of the title "United States" is the lettering "series of 1869." Between the words "series of" and "1869" in the genuine there is a small flourish, but in the counterfeit there is none. In fact, the whole general appearance of the face of the note is bad, and has a decided lithographic look—also in length it is the one-eighteenth of an inch shorter than the genuine. The reverse of the counterfeit, composed of lettering and geometrical labor work, is a close imitation of the genuine note.

Well Known.

For the benefit of all such as are too well known to advertise, we desire to say just a word. In the first place, is it fact? Those who make use of this argument, we will say, are the oldest settled in business out he Island; which has made them so well known. Gentlemen, do you consider how great has been the addition to the population since you came? "But," you reply, "they know where I am without advertising." How do they know? "By the sign." O, yes; then that's advertising, is it not? "Well, one kind of advertising." And thus it is; if we should say to one of these traders, so well known, take in your sign, what would he say? Of course, it would damage his business; and yet only the small number of pedestrians passing the store are attracted by the sign, while he will voluntarily withhold his sign from the thousands who would weekly read it in the columns of the local paper.

If a sign upon the store is essential to the business, is not sign in the hands of families, who would not otherwise see it, infinitely more important?

"Too well known to advertise." Do you forget that people are continually moving? What is there, or who is there, fixed and settled in this world? Do you consider that other merchants, often young traders, are advertising, if you are not, and, taking the ground from under your feet? You will soon discover what becomes of those "well known" when your customers find they can do better when attracted elsewhere.

While the merchant is well known is drearily keeping charge of his store, not thinking it necessary to advertise, other pushing, earnest, tact-possessing, live advancing men are hailing their artistically-drawn, attractive, alluring invitations to the public.

The action of the President in preventing a conflict in New Orleans, seems to give general satisfaction to the citizens, in view of the early coming of the Congressional committee, which promises a peaceful solution of political troubles there.

The Warmouthites have decided that it requires 24 members of the House and 19 of the Senate to constitute a quorum, thereby annulling their action repealing the obnoxious laws.

A Woman in Love with Alexis.

Among the passengers on the regular train from St. Louis Friday morning was a well dressed and well appearing lady, who made inquiries as to the whereabouts of the Grand Duke. On learning, she expressed a good deal of regret at not having arrived sooner, and so conducted herself as to cause inquiry. It was learned that she belongs to a small town near St. Louis, and is a maiden lady some twenty-six summers who has conceived the singular infatuation that she is the destined wife of the Grand Duke Alexis. She attempted to take passage on the ducal train when it left St. Louis yesterday, but was prevented. She finally secured a ticket on the regular train, and arrived here only a few hours behind the one on which Alexis rode. She expressed a determination to go with him on his buffalo hunt, but failed in securing a seat in the Pullman cars. She belongs to a good family, and has plenty of means to carry out her whim of following his Highness over the country, but so far her devotion has met with no reward, Alexis not deigning to bestow upon her a single glance. She is not discouraged, however, but seems to be confident in the ultimate result of her mission and, as it is leap year, she does not have that modesty in the pursuit of her object that is usual with maidens of an uncertain age. She first met the Grand Duke at his reception in St. Louis, and, to use a common phrase, she has been "struck" after him ever since. She says she will only desist when he shall make her the Grand Duchess. [Omaha Bee.

What the Storm did in Nevada.

A Nevada correspondent, writing of the storm in the early part of January says: "The mail from Carson has come in during the storm by the great perseverance of the carriers and agents here, with more regularity than could be expected. Last night for the first time, Harkness got the stage to the vicinity of the town, but could not get it to the Post Office or the stable. The streets are full of packed snow. This morning the first passengers during the storm left by stage. The great difficulty on the road from here to Benton and Columbus is in this town and about eight miles out. We have had but one mail from there, and that was packed in. Dexter has made every possible effort to open the road, and has paid out over $300 in doing it, but what he would open in one day would be filled up with the snow falling or blowing in. Several persons have arrived from Benton, but all have come on snow shoes for ten miles. Two men got in late in the night, and almost perished in so doing; one man left his horse about eight miles out, and suffered severely before getting in. And yet with all the sad experience we have had, people will take their chances by being out at night. Fortunately the weather has not been severely cold—the thermometer not below twenty degrees. Yesterday Dexter put the mail on two hand sleds and hired Piutes, they going on snow shoes, to take it to the first station, eighteen miles distant.

The New Daily Paper.

The Boston correspondent of "Our Society" says the new eight page daily is the theme of much conversation. It will be called The Globe. Ten gentlemen have put down $50,000 apiece, and will double their contributions if necessary. The proprietors are willing to lay out $250,000 to buy their success. The price has not been stated, but will probably be four cents. The design seems to comprehend an eclectic daily: to carry out the plan successfully, it must give as good editorials and criticisms as does the Post; as enterprising in its locals as the Traveller; as full in its correspondence as the Journal; as good in its selections as the Transcript; as prompt in its publication as the Herald; as enterprising in sensationalism as the Times; and as pure in its moral tone as the News; when the model sheet gets under way, not only will the "hub" of the universe be in Boston but the whole "Globe" itself.

The Proposed New Cables.

The Washington despatch to the Boston advertiser says the Southern International Telegraph Company, incorporated by the bill introduced by General Banks, Monday, will include Governor H. D. Cooke, John C. Fremont and a number of lesser known capitalists, who will have authority to lay a telegraph cable from the United States by the way of the Bermuda and Sicily Islands, to Land's End in England and across the Pacific Ocean to some undesignated locality. The tariff on the Atlantic line is limited to three dollars, gold, for ten words, and on the Pacific to five dollars, gold, for the same number. The capital of the company is fifteen millions and the Atlantic cable is to be completed within three years from the passage of the act.

The New York Post understands that the senatorial committee will continue their custom house investigations until the questions which have arisen are settled, so far as they can settle them. The Post further remarks: "We have hardly ever known a body of men, differing so widely in their political associations and aims, to examine a subject so closely connected with political prejudices in a manner so cordial and courteous; and we can ascribe the great, though partial success which has already attended their labors, only to the general candor and sincerity of the senators themselves. None of them can fairly be accused of showing any disposition or desire either to suppress or to distort facts." This testimony, coming from a source not altogether friendly to the majority of republican senators, by whom the committee was appointed, is worthy of notice.

Secretary Robeson is going to put in practice the civil service reform in his department. Having received complaints from Massachusetts that the offices in the Navy Yard were used for political influence, he sent an order requiring that every man employed by the government shall in all cases be permitted to form his own opinions, and to act as his own interest and judgment shall direct, and that any assumption or exercise of power in violation of the spirit of this circular by any person in authority under the department, will be punished by the removal of the person offending.

Our government has very properly detected our minister to England to protest against the sending of English criminals to this country. The worst burglars are often sent here by English officials, who desire to be rid of the desperate characters. They soon find willing tools among the young men of our large cities. The large burglaries and bank robberies are generally planned by this class of criminals.

An Illinois clergyman forbids any further contributions under five cents, saying that "the widow's mite business is played out here."

ABOUT HOME.

—Rev. Mr. Boyd of the Cambridge Divinity school will preach in Rev. Mr. Brooks' church, on Sunday next.

—Rev. S. F. Hancock, formerly pastor of the Central Baptist church in this city, has charge of the Baptist church at Cumberland Hill.

—That was a very pleasant and happy party assembled last evening at the residence of Mrs. M. T. G. Stacy on Bridge street.

—The Franklin Lyceum committee, of Providence, have engaged for their lecture course, next year, Froude, the historian, and George McDonald, the celebrated novelist, both of England.

—Mr. James Nelson, a carpenter, in the employ of Mr. James Dowling, at work on a building at the south of the Ocean House, fell and broke one of his fingers on Monday last.

—The editor of the Providence Herald is in trouble. He attempts to criticise the wording of an item published in the News a few days since, but his wisdom(?) is too much for him, and now if some friend will explain to the man what he is driving at (for we are sure he will never find out by his own unaided exertions) he will be deserving of greater praise than that friend to the "man who fell among thieves."

Harbor Line.—A resolution was passed in the General Assembly, at Providence yesterday, referring the whole matter of harbor line in this city back to the City Council, and giving them power to establish such a harbor line whenever they see fit.

Railroad Rumors.—It is reported on good authority that Franklin Woodruff, esq. of New York city, has expressed himself willing to take $50,000 worth of stock in the proposed railroad to Narragansett Pier if it is laid out by the Kingston route.

Divorce.—Next Friday evening at the Opera House, the popular drama, "Divorce" will be played under the direction of Augustin Daly. This play has been produced in the 5th Avenue Theatre, New York and in many other of the leading theatres in the country, where it has been received with great applause. We doubt not that it will be brought out here in a manner which will please the public.

Small Pox.—The prompt action of our authorities in removing the one case of small pox to the hospital, immediately on its discovery, has in all probability prevented a further spread of the disease. There is no appearance of new cases, though at this time, when the small pox exists in nearly every city in the Northern States, there is no surety that the disease may not at any time break out among us.

A Valuable Present.—About twenty-five of the members of the Esther Lodge, Daughters of Rebecca, of this city, met at their hall last evening and from there repaired to the residence of Mr. Benjamin Bateman ecq, who has recently returned from a valuable dressing gown, as a token of their regard for his valuable labors in the behalf of the Lodge.

Smoking in the Street.—The following piece of wisdom, which it would be well for not a few of our people to heed, is from the "City" a paper published in New York: "To smoke walking in the street is not to do by other pedestrians as one would be done by; for no matter how much anybody likes his own smoke, a full whiff of another's makes him share the sentiments of that colored matron, who, struck in the face by a feline corpse, exclaimed, 'No gentman would a throw'd that cat.'"

Woman's Rights Meeting.—Mrs. Churchhill of Providence, who is one of the best of the female lecturers on that subject and who has met with great success as a lecturer, all over New England, is coming here to speak upon Woman Suffrage at an early day. She will probably speak in the Opera House, and we hope soon to be able to announce the precise time. This will be a free lecture, and as that is a subject which all are interested in, whether they believe in it or not, we trust she will have a full house. Col. Higginson will probably be present, and without doubt have something to say on the question.

Fall River.

The News says that Monday evening at 11 o'clock, Hezekiah Battelle, one of the most prominent aged citizens of Fall River, breathed his last, at the ripe age of 82 years and 3 months. His health has been declining for some time, and his most intimate friends have lived in expectancy of his being called away for several weeks, and at last the hour has come.

South Kingstown.

Drowned.—Noah Holloway, a man more than seventy years of age, while going home from a meeting last Saturday afternoon, attempted to skate across Great Pond. He broke through the ice and was drowned.—His family, thinking he had gone to visit some relatives, were not alarmed till Sunday, when search was made and his body was found under the ice.

Town Council.—The Council met as usual on Monday last, at Kingston, all the members of the honorable body being present. Messrs. Robert E. Knowles, Hazard G. Knowles and John C. Hazard were drawn a grand jurors, and Messrs. Thomas B. Sherman, John F. Adams, Updike G. Ilford, and William H. Champlin as petit jurors at the next term of the Supreme Court which meets at Kingston on Monday, Feb. 19.

A Lawyer's Epitaph.

In the north part of Middlesex county, Mass., is a monument bearing the following quaint epitaph, strikingly suggestive of one which may some time have to be carved in Essex:

Here lie the bones of W. F. Butterfield,
A Lawyer, dead and buried;
We hope the deed will be accepted,
Not for the deed done, but the deed intended.

[Springfield Republican.

New York Items.

Anti-cruelty Bergh, in a letter, declares that he meant no disrespect to pistol-shooters by his recent action, and that as the law was against him he will desist from interfering with them.

Rev. Joshua D. Bradley, whose defection from the Protestant Episcopal Church has caused so much excitement in religious circles, will be received into the Catholic church by Dr. McGlynn, to-day.

Commodore Vanderbilt denies that he is dead, a rumor to that effect the other evening being started by stock jobbers to influence certain railway stocks.

Rev. Mr. Hepworth commenced, Monday, organizing his new church, having on the first list of members one hundred and fifty families.

The Russian fleet left their anchorage Monday evening and dropped to the lower harbor, sailing yesterday morning for Pensacola, where it will be joined by Alexis, thence proceeding to Havana and other ports of the West Indies.

The Council of Tammany Sachems Monday passed a resolution confirming the previous resolution of the Sachems, excluding the committee of 1872 from the use of Tammany Hall. They desire to await political developments before surrendering the real estate of the Society to any Democratic organization.

It is now asserted positively that Judge Bedford's Grand Jury will take no action against the municipal robbers till the Legislature shall have legalized their extension. It is said a thousand and five hundred indictments will be found, which ought to leave no participant in robbery of the city unpunished.

The heavy raid on the Broadway concert saloons Monday night, was only the beginning of a series for the suppression of shameless vice on the principal thoroughfare of that city. The proprietors now in custody are held for trial.

Tweed and Connolly, though not actually in durance vile, are seen every day in the city by the sheriff, who says he knows where the latter is every hour in the day.

Facts.

Some girls are like old muskets; they use a good deal of powder, but don't go off.

It is announced by a Connecticut paper that a certain prominent officer went pickerel fishing a few days ago and caught—the diptheria.

Stokes is reported now to be careworn and gloomy. Perhaps his counsel have found out that the bravado style has had its course and will not pay hereafter. Now people will become sorry for him.

The man who shot and killed a boy in his melon patch, when called to account for the deed, said he did it in mercy to the boy, who otherwise might have died a painful death from cholera morbus.

There are eight millions of tobacco users in this country, who each consume twelve pounds and 167 cigars per annum. This includes puffing with a vengeance. We have no official statistics of the spittoon trade, only as the Tammany ring encouraged it.

A San Francisco lady, riding in a street car, reached out her hand and caught a runaway horse by the bridle, and brought him up standing. The man in the carriage got an introduction to her, and soon she is married by proxy. How singular these accidents turn out some times.

Only about $12,000 has been subscribed toward the fund for the Farragut monument. A meeting of the executive committee was held a few days since, and steps taken to resuscitate the movement.

(For the News.)

The Turkish Bath.

The Turkish Bath is one of the richest legacies bequeathed to us by an ancient civilization and has very properly been styled the "Queen of Baths."—Setting aside its medicinal properties and wonderful curative powers, it is a luxury which can be appreciated only by those who have experienced its delicious, soothing sensations. It is well known that neuralgia, rheumatism and skin diseases are unknown to the Turks, a fact attributed by scientific men to the free use of their national bath. Cleanliness is most assuredly the first law of health but by the ordinary methods it is almost impossible to keep the pores open and the surface of the skin free from effete matter which will accumulate, and which is the direct cause of many serious complaints. If the skin is not able to perform its functions, the lungs must work so much the harder and the result is, often, a fatal disease of those organs.

The bath thoroughly cleanses the skin, giving it a freshness, firmness and elasticity produced by no other means. It purifies the blood, subdues fever, overcomes internal congestion and indigestion, removes colds, and obviates almost every chronic ill the flesh is heir to. It is a wonderful tonic and, as a curative of disease, while in its control and permanent in its results; it deserves the exalted encomiums given it by the most eminent medical men.

The *modus operandi* it is impossible to give fully in an article of this length. The bather reclines in the Calidarium, or hot room, where the temperature ranges from 140° to 175°, till every pore is open by perspiration. He is then conducted to the Shampooing room. Here, by various manipulations, the muscles are relaxed and the joints made flexible. A lather, of perfumed soap, is laid upon the person, a thorough rubbing with brush or manilla bark ensues, and then follows as preference may dictate, a douche, shower or plunge bath. The bather retires to the cooling room whence, to quote Bayard Taylor, he "comes forth with body shining like alabaster, fragrant as the cistus, sleek as satin and soft as velvet. The touch of the skin is electric. As we go homewards, we involuntarily look down, to see whether we are really treading upon the earth, wondering perhaps, that we should be content to do so when it would be so easy to soar above the house tops."

The time consumed is greater than that required for the ordinary bath; but it should be the duty of every person to take time for the improvement and preservation of that greatest of blessings, health. Our population are overworked and harrassed, which, with the unfavorable influences of climate and sedentary habits, combine to suggest the extended use of this bath as a national need. Newport as yet has not the conveniences or appliances for baths of this description, though we hope the time is not far distant when we may be blessed as is now our sister city. Since the introduction of pure, soft water into Providence the well-established bath rooms of Dr. Dow on Benefit street are perfect in all their appointments, and at that institution our citizens may lose the muddy and faded hue of ill health and come forth with countenance rosy, renewed strength, the morbid appetite overcome, the skin clean and soft and the complexion beautiful.

M. D.

TELEGRAMS.

FROM WASHINGTON.

Jan. 23, 1872.

Gen. Wilson and the Vice Presidency.

"Perley" telegraphs to the Boston Journal that General Wilson's friends have determined to present his name to the Republicans of the country as the man who above all other men should receive the nomination for the Vice Presidency at the Philadelphia Convention. The General himself remains silent, and takes no steps toward securing the nomination; but his friends are actively at work. They confidently claim the votes in the convention of Pennsylvania, Ohio, Illinois, Virginia, Alabama and other States already, and are waiting for that response from New England that will doubtless soon be forthcoming. Meanwhile, there is no manifestation of bad feeling here between the respective friends of Wilson and Colfax who are united in advocating the renomination and the reelection of General Grant.—Whether the Philadelphia ticket is to be Grant and Wilson, or Grant and some one else, remains to be seen; but there is no doubt about his success.

Secretary Robeson's Wedding

Today was a very quiet affair. Mrs. Aulick the bride, wore a silk walking dress of the fashionable shade called "London Smoke," trimmed with ruffles of the same material, edged with black lace. The Secretary wor a black frock coat, with a white rose in his button hole, and light pantaloons. President Grant availed himself of his prerogative and kissed the bride and the happy couple left for the North in the noon train.

THE WHARTON TRIAL CLOSED.

The Case Given to the Jury.

ANNAPOLIS, Jan. 23.

Attorney General Syester closed the argument for the prosecution in the Wharton trial this afternoon, and Chief Justice Miller gave the case to the jury at 2 o'clock, with the simple remark that their verdict would be either guilty or not guilty in the first degree.

11 P. M.—The jury in the Wharton case have not yet agreed, and are said to stand seven for acquittal and five for conviction. The court allowed them supper and to occupy the court room tonight. The court meets at 9 o'clock tomorrow morning, and is undecided how long to confine the jury in case of continued disagreement. If no verdict is rendered, the State will have the right to remove the case to any court in the State, except that of Baltimore city. From present indications there will be no verdict at this trial.

GENERAL ASSEMBLY.

ADJOURNED SESSION—AT PROVIDENCE.

TUESDAY, Jan. 23.

Senate.

Mr. Currey, from the committee on the judiciary, reported back the papers in the matter of the establishment of a harbor line at Newport, together with a resolution referring the whole matter back to the City Council of Newport, and giving said City Council power to establish such harbor line, which resolution was read and passed and ordered to be communicated to the House.

Also, from the same committee, the petition of Richard Swan, for leave to release his wife's dower in certain real estate. The committee recommend granting the petition in concurrence with the House, with an amendment giving the Probate Court of Newport some jurisdiction in the case. Read and passed by the Senate.

Mr. Powel from the committee on corporations reported back an act to amend the charter of the Pascoag Savings Bank, increasing the amount of deposits allowed in that bank to $1,000,000, and the same was read and passed.

His Excellency the Governor announced the names of Messrs. Matteson, Peckham, and Blake as composing the joint special committee on a prohibitory law, on the part of the Senate.

House.

The bill reported by the committee on the Revision of the Statutes, "Of Public Instruction," which was, under consideration at the adjournment yesterday, was taken from the table. On motion of Mr. Cooke of Providence, several verbal amendments were made.

Mr. Lyman, of Providence, moved to strike out in Chapter——, "Of Truant Children and Absentees from School," the words, "by such town under the authority of said preceding election," but nothing herein contained shall authorize the sentencing of any truant to the Providence Reform School."

After some discussion, the amendment prevailed, and the words were stricken out.

A few clerical amendments were made, and the title was passed and sent to the Senate.

Gentlemen's Fashions.

The delegates appointed by the Philanthropic Society of Master Tailors of Paris—which is composed of the members of the leading firms of the trade in that capital, and the principal French provincial towns—to determine the different styles of garments for the coming season, have recommended the following:

For full evening dress, coat of a rich shade of blue cloth, with figured gilt buttons, velvet collar, silk breast facings to lapel seam, black skirt lining, and plain round cuffs without buttons. Waistcoat of white quilting, with a bold roll collar, open very low in front, with three buttons (covered moulds). Trowsers of blue doeskin, the same shade as the coat, with a black silk braid sewed down the side seams.

For a dinner suit, or to wear at evening parties, where less etiquette is observed—a black dress-coat, cut sufficiently full in front to admit of the third button being buttoned. Waistcoat of black satin, silk or cassimere, to button four buttons; and a white under-vest, showing about half an inch above the turnover of the coat when buttoned. Trowsers of black doeskin, with plain side-seams.

For demi-toilet, or a compromise between dress coats and morning coats—a black cloth frock coat, to button three buttons, and cut easy to the figure, side edges on the skirts, which should have a moderate compass, edges single stitched and plain cuffs on the sleeves.

Both single and double-breasted morning coats are recommended, the former with three buttons only on the fore part, cut long in the waist, short in the skirt, and flaps in the waist seam; double-breasted morning coat to button one or two buttons, pockets in the plaits behind, no flaps on the hips, but an outside breast pocket on the left side, with a small welt; sleeve finished with a cuff and two buttons and holes; edges bound rather wide, or the braid sewed on flat. Waistcoat double-breasted without a collar, and edges finished to match the coat. Trowsers cut rather wide in the leg, and to fall easily on the boot. The whole suit of the same material and pattern, or of different pattern if preferred.

The single breasted morning coat is for negligee, while the double breasted morning coat is considered more dressy, and should be made from diagonals or fancy mixtures of plain color.

Throw in Reinforcements.

The Citadel of Life is in a state of siege all the year, but is never more closely besieged than in mid-winter. The river is nearly subdued that month, and the bowels more or less constipated at all times, and disorder often assumes a most aggravated form. The spirits and nerves are depressed, the English system seems incapable to withstand the shock of its most important duties under the influence of a low temperature, and requires wholesome stimulation. The spur required is Hostetter's Stomach Bitters, the only medicine which quickens the action of the secretive organs, and brings out the latent vitality of the system, without creating any febrile symptoms, or the slightest nervous excitement.

The great Vegetable Tonic is now recommended as a specific for Coughs, Colds and Consumption—that field being left open to the concoctors of preparations which can not, by any possibility reach the lungs; but as a specific for the constitutional and physical weakness which invite pulmonary disease, it is literally infallible. The most insidious and terrible enemy of human life is not disease itself, but the weakness which affords it an opportunity to gain a firm hold of the vital system. Remember that vitality, vital energy—the life principle, or whatever you may choose to call the resistant power, which battles against the causes of disease and death, is the *grand safeguard of health*. It is the garrison of the human fortress, and when it wakes weak, the true policy is to throw in reinforcements. In other words, when such an emergency occurs, commence a course of Hostetter's Bitters.

Re-animating the Hair.—When the hair ceases to draw from the scalp the natural fluid that which is its nourishment, its vitality, so to speak, is suspended, and if not promptly attended to, baldness will be the certain result. The one sure method of avoiding such an unpleasant catastrophe is to use Lyon's Kathairon, which when well rubbed into the scalp, will speedily reanimate the hair and prevent its fall. Lyon's Kathairon, this inimitable restorant and strengthener of the hair nourishes and stimulates its growth and render fibres, removes all obstacles to their growth in the pores of the skin and, in fact, will ultimately produce a new crop of hair, stronger, glossier, and twice as abundant as the old. As a hair dressing it is holdly the most agreeable, refreshing and serviceable article ever placed upon a dressing-table.

A Beautiful Woman. The perceptive faculty of women is usually keener than the same phrenological organ in men. Women know that beauty, rather than genius is worshipped by the stronger sex. A man may talk of the latter to his lady-love; but the keenness of the woman knows that he is thinking of the former. Women are fond of admiration; hence one of their longings is to be beautiful. The grand secret of female beauty is health, the power to easily digest and assimilate a proper quantity of wholesome food. Take Vinegar Bitters. It will cleanse the stomach, tone the vital organs, give a perfect digestion, purify the blood, clear up the complexion and produce a state of mental and physical electricity, which gives symmetry of form, bright eyes, white skin, glossy hair and a genuine type of female loveliness, which no cosmetic can produce. jan4-w

Dighton, Mass., August 16, 1871.

Messrs. FLINT & CO.—Dear Sir:—I am only too happy to add my testimony to the mass you have already acquired in relation to the medicinal qualities of Old Dr. Warren's Quaker Bitters. I have not enjoyed good health for years, and have been under the physicians care for the last thirty years, and cannot say that I have been benefited by their treatment. I have tried all the popular medicines of the day, without the least improvement. Six months ago I had a paralytic shock which completely prostrated me. Seeing your bitters advertised, I was persuaded by my critical condition to try them, although I had tried such a variety of medicines, I did not have much confidence in anything. I have now taken four bottles and have experienced more benefit from their use than all the medicine I have ever taken in my life combined. I can truly say without hesitation that they are the *best* medicine ever offered to the public.

Respectfully yours, REV. M. M. BRALLY.

For sale by Druggists and dealers in medicine generally.

About Two Months Ago

About Two Months Ago

We advertised at "Oak Hall" HEAVY SEWED BOOTS for Men and Boys at $2.50 per pair.

In little more than a week EVERY PAIR WAS SOLD, so that we were obliged to withdraw our advertisement.

We have since had not less than three hundred inquiries for this famous sewed army boot, but have been obliged to disappoint them all.

We open to day 1000 PAIRS, the only lot in the country which can be sold for $2.50 a pair. Sportsmen, teamen, farmers, mechanics, carpenters, laborers, men of every station should improve this opportunity to secure what is not often offered, a pair of hand-sewed boots for $2.50.

These boots are the best *hand-sewed*, and could not be *manufactured* for less than *double the money we intend to ask for them.*

FOR CASH, in lots of not less than 50 pairs we offer TO THE TRADE, CITY AND COUNTRY, at 10 per cent. discount from our retail price, with the following generous assortment of sizes:

13	15	10	5	1
7s	8s	9s	10s	11s

Send orders by mail, express or telegraph. All will be served alike!

PRICE FOR SINGLE PAIR

—At Retail—

$2.50.

29th, 30th and 31st

Of this month "Oak Hall" will be closed for the annual account of stock. In the short time intervening we wish to close as far as possible what remains of our *winter stock*, consisting of Men's and Boys' OVERCOATS, SLEIGHING CAPES, HOODS, ULSTER COATS and HEAVY SUITINGS.

dec29 JOHN G. PECKHAM.

Captain Hassayampa Improvements in Cookery.

Captain Phineas P. Warren, of the British army, learned, a few years ago, a new process for cooking meat that, judging from the reports made upon it by the officers of the English service (both army and navy), and from experiments with it in this country without our observation, is undoubtedly destined to revolutionize the practice of all our kitchens, and to reform the diet of our whole nation. It is easy to see into extravagance in discussing the possible effect of new improvements, and especially wish to avoid this fault; yet when we consider the harm that is done to the whole world (in its morals, in its temper and in its ability to work and do good in life) by indigestion, and by that indefinite evil and that we call "dyspepsia," any plan by which our food can be made more digestible, promises benefits that we can hardly over estimate.

A properly cooked joint of meat is scarcely ever seen; indeed, it is but rarely that we see a joint of meat that is not very badly cooked. "Done to a turn" should be an obsolete expression, since the revolving spit in front of the fire has fled before the universal cooking stove. Of much of our meat it would be fair to say, "done to a turn of the stomach," were it not that we train our stomachs to wrestle with leathery viands and to make no rebellion until the time comes, as it does come to most American stomachs, when they begin to feel (and to make us feel) such remorse as only guilty stomachs can compass. While the whole population suffers from the curse of bad cooks, the infliction is especially severe on those who live in the country, where the women too seldom know whether their cooks (if they have any) are good or bad. Indeed, a knowledge of what constitutes good cookery is notoriously almost entirely wanting, and even a New England Thanksgiving dinner would drive an average Frenchman wild with visions of subsequent stomach-aches.

We are, therefore, doing a real service to our rural readers (and) unless we are especially unfortunate in our friends' cooks, to our city readers as well), in bringing Captain Warren's system to their notice. The principle on which he works is to bake his joints at a low temperature in a tightly closed vessel, from which the escape of the volatile flavoring ingredients of the meat is impossible; where the heat will never be sufficient (as the heat of boiling water is) to harden the tissue of the meat, making it tough to chew and difficult to digest; and where the juices, that are dried away and destroyed or lost in an ordinary oven, are retained to keep the meat palatable, nutritious, and easily digestible. His purpose is accomplished by surrounding his oven almost entirely with steam (made at its natural pressure) at a temperature of 212 degrees. That which we call an oven is really a tin pot which, near its upper part, fits tightly into the mouth of a larger and deeper vessel, also of tin, and which is connected with a double (hollow) lid. A pipe connecting the space in the lid with the steam space of the outer vessel passes through one side of the inner one. This inner vessel has a false bottom on which the meat is laid, and which keeps it from touching that part of the pot which is in contact with boiling water, such contact would cause a portion of the meat to be overcooked or made tough. One inch or more of the inner pot projects above the mouth of the lower one; and this space is in contact with the air, wasting enough heat, it is asserted, to reduce the temperature to 210°, which is a perfect "simmering" heat, and which Liebig says is the best temperature for the cooking of meat. All but this narrow space is in contact, not with the air, but with steam which remains invariably at 212° so long as the water in the power vessel is kept boiling at all.—No matter how furiously the boiling is pushed, it is impossible to increase the heat of the steam without the aid of an artificial pressure.

In plain terms, the apparatus may be described as a pot within a pot (like a glue heater), the inner one running up an inch or so above the other, and being provided with a double cover to which the steam has access. The outer pot is filled with water to a height to about touch the bottom of the inner one. Meat is put on the false bottom of the latter, the cover is put on, and the machine is set over the fire. As soon as the water boils, steam fills the space around and over the meat chamber (except the condensing space near the top), and any heat that will keep the water boiling at all will keep up the requisite cooking temperature inside. The time required for perfect cooking is (as in the ordinary methods), a quarter of an hour to the pound. When this time has expired the appearance of the meat is that of ordinary boiled meat, and it is in perfect condition to be served as such. If a roast is desired it is only necessary to put the joint, dredged with a little flour, into a quick oven until it is browned. This process is attended with no perceptible loss and the result is absolutely perfect. The most ideal roasting on a spit, under the most accomplished cook, is no better than what may be done by the greenest of immigrant peasants. All that is needed is to keep the water boiling—fast or slow—for the prescribed length of time, and to brown the roast off in a hot oven.

We know, by the constant experience of more than a year, whereof we write and we shall take an early occasion to publish the statements and statistics by which the patentee has supported his claim to the consideration that is being accorded him.

[N. Y. Evening Post.

INSURANCE.

DWELLING HOUSES

INSURED IN

The ÆTNA, of Hartford,

FOR A

TERM OF YEARS

AT

VERY LOW RATES.

No notes, no assessments, no liabilities on the part of the insured, no rebuilding or repairing done by the Company in case of fire, no delay in effecting settlements, and no lack of cash with which to pay losses. The ÆTNA has paid $32,000,000, and is used to it. Rates no higher than in weaker companies.

Policies issued by

L. D. DAVIS, Agent.

Jan17

$10,000,000.

THE UNDERSIGNED finds it necessary to add still another to his list of **Insurance Companies.** Acting on the principle of representing none but the largest and the best, he has secured the agency of

THE ROYAL, of Liverpool,

which has a paid up capital and surplus of

$10,000,000.

Within the experience of the Chicago fire before us it is scarcely worth while to risk one's property in the small and uncertain Companies that are "just as good as any" until the time of trial comes.

☞ Look at this list:

ÆTNA, of Hartford,

(The largest Company in America,)

Assets, $6,000,000.

INSURANCE COMPANY, of North America,

(The Oldest Company in America,)

Assets, $3,000,000.

THE OLD HARTFORD,

(Established in 1810.)

Assets, $1,250,000.

PEOPLES, of Worcester,

(Ever prompt in payment of losses.)

Assets, $600,000.

ROYAL, of Liverpool, England,

ASSETS, $10,000,000.

The public will bear in mind the fact that it costs no more to insure in the above than it does in the numerous small fry concerns, such as went down in the recent disaster, and left their customers without redress. Remember that the above figures represent the standing of those Companies *after* paying their losses at Chicago.

Dwelling Houses and their contents, insured for three or five years at very low rates. All classes of property covered on short notice.

L. D. DAVIS,

Newport, Dec. 11, 1871. Daily News Office

Dwelling Houses

AND

Farm Barns with their Contents

Can be insured at very low rates at the agency of the undersigned.

Policies given for three or five years with no liability to assessments and with absolute certainty of prompt payment in case of loss. As the risk is comparatively small, the price is correspondingly low.

L. D. DAVIS,

Daily News Office.

OFFICE OF

City Insurance Company,

18 MARKET SQUARE.

SHINN'S Portsmouth, Dec. 18, 1871.

The capital of this Company has been increased to the amount of its charter, $100,000.

Assets of the Company, 185,000

Largest amount covered on any one risk, 2,000

Average amount covered on any one risk, 1,000

This Company commends itself to those who are seeking a safe and reliable Company in which to insure their property.

EDWARD S. HAZLITT,

Jan1 Secy.

Marine Insurance!

The Insurance Company of North America will cover Marine Risks at the Chicago Agency on and after this date. The Company was organized in 1794, is the oldest Fire and Marine Insurance Company in America, and has accumulated assets, over and above its capital stock, of nearly

$3,000,000.

Parties wishing to arrange for the Insurance of all their cargoes for the year, can do so at less than transient rates, and at the same time avoid the vexations and uncertainties consequent upon leaving the business with parties at the other end of the route.

L. D. DAVIS, Agent,

DAILY NEWS OFFICE.

Newport, Jan. 1, 1872.

INSURANCE!

After paying all Liabilities by the Chicago Fire, the Insurance Companies that we represent will stand as follows:

	ASSETS.
PHENIX of Brooklyn, N. Y.	$1,400,000
Queen of Liverpool and London	10,000,000
Imperial of London	9,000,000
Connecticut of Hartford	400,000

Reliable Insurance given for One, Three or Five Years, on Buildings, Merchandise and other insurable property.

LANGLEY & ENGS, Agents.

☞ Holders of POLICIES of the Manhattan and Security Co's of N. Y., are requested to send the same to this Office for settlement and payment.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS, Their effects and consequences;

SPECIAL AILMENTS AND SITUATIONS Incident to Married and Single Ladies.

SECRET AND DELICATE DISORDERS; Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose; Throat and Body; Pimples on the Face; Swellings of the Joints; Nervous Diseases; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages; of

BOTH SEXES, SINGLE OR MARRIED,

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass.,

Who arranged that patients never see or hear each other. Recollect the outer entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person oscillate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he is the only regular graduate physician advertising in Boston.

TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than in any other city.

DR. L. DIX

broadly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

Who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising the names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books names that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything;" but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctors, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., but to prove upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting, giving mercury to their patients or, that it is contained in their Nostrums, so that the "dollar" may be obtained for professionally curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is time that many are cozened also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

fees are very moderate. Communications sacredly confidential, and all may rely on him with the strictest accuracy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

Address Dr. L. Dix, No. 21 Endicott Street, Boston, Mass.

Jan 2—Siaw—1 year.

TO THE LADIES.—The celebrated DR. DIX particularly invites all ladies who need Medical or Surgical advice, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all, both in this country and in Europe, that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

The medicines are prepared with the express purpose of removing all diseases, and at definite periods, unless unnatural suppression, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are specifically invited to call at

No. 21 Endicott Street, Boston.

Letters requiring advice must contain one dollar, cases no answer.

Jan1—Siaw—1y

A GREAT MEDICAL DISCOVERY

MILLIONS Bear Testimony to their Wonderful Curative Effects.

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL PURE CALIFORNIA DR. WALKER'S VINEGAR BITTERS

J. Walker, Proprietor. R. H. McDonald & Co., Druggists & Gen. Agents, San Francisco, Cal., and 32 Commerce Street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful spur to relieving Congestion or Inflammation of the Liver, and all the Viscera Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which, render them of unequaled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when; keep the blood pure, and the health of the system will follow.

Pin, Tape and other Worms, lurking in the system of so many thousands, and effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that need these living scourers of disease. No System of Medicine or vermifuge or anthelmintics will free the system from worms like these Bitters.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, California, and 32 and 34 Commerce Street, New York.

JURUBEBA.

IT IS NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such. IT IS A SOUTH AMERICAN plant that has been used for many years by the medical faculty of those countries with wonderful efficacy as a POWERFUL ALTERATIVE and UNEQUALED PURIFIER OF THE BLOOD, and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, DISEASES OF CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE CAKE, FEVER OR THEIR CONCOMITANTS.

Dr. WELLS' EXTRACT of JURUBEBA

is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weaknesses with their attendant evils. For the foregoing complaints

JURUBEBA

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system, it gives health, vigor and tone to all the vital forces, and invigorates the whole and sympathetic temperaments.

JOHN G. ELLIOTT, 13 Platt St., New York, Sole Agent for the United States.

Price One Dollar per Bottle. Send for Circular.

Great Chance for Agents.

For Coughs, Colds and Hoarseness.

These Tablets present the Active Medication with other efficient remedies, in a popular form, for the Cure of all THROAT and LUNG Diseases.

HOARSENESS and ULCERATION of the Throat are immediately relieved, and testimonials are constantly being sent to the proprietors of relief in cases of Throat difficulties of years standing.

CAUTION. Ask for and see that you get only Wells' Carbolic Tablets. Price 25 Cts. per Box.

JOHN Q. KELLOGG, 18 Platt St., N. Y.

dec29-4w Send for Circular. Sole Agent for the U. S.

The virtues of Simple Tea as a Hair Tonic and Preserver have long been known, but no attempt have been made to extract the oil scientifically.

By a process peculiar to this preparation, the Essential Oil of the Tea Plant has been added to other vegetable extracts, and an UNEQUALLED TOILET ARTICLE FOR THE HAIR IS THE RESULT.

It is especially useful to prevent the hair from falling out or growing thin, and as a wash for the scalp, to stimulate the hair bulbs and prevent the gradual decay and loss of color in the structure of the hair tubes. Price, $1.00.

DR. R. KENNEDY,

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

NO. 78 STATE ST., opp. KIRBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure Patents, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to employ him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAUHART."
